PROFESSIONAL SUMMARY

Full Stack Developer with backend expertise in Spring Boot, Node.js, MongoDB, and AWS, specialising in cross-platform application development using Flutter. Built *Qlue*, an AI-driven interview platform featuring real-time speech-to-text and voice interaction powered by AWS. Strong foundation in Data Structures & Algorithms with a track record of delivering scalable, production-ready applications and winning competitive hackathons.

TECHNICAL SKILLS

Languages	Java, Python, C++, Dart, SQL, JavaScript
Frontend	Flutter, HTML, CSS
Backend & Cloud	Spring Boot, Node.js, Firebase, AWS (Polly, S3, backend services)
Databases	MySQL, MongoDB (CRUD, indexing, schema design)
Tools	Git, Docker, REST APIs, VS Code
Core Concepts	DSA, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

Qlue — AI-Driven Interview & Learning Platform Oct 2025
Flutter · Dart · Firebase · AWS Polly · Speech-to-Text

- Engineered an AI-powered interview simulator that generates resume-tailored questions and conducts live voice sessions using Amazon Polly (TTS) and Flutter's speech-to-text API.
- Architected Firebase backend for real-time authentication, Firestore database management, and serverless workflow orchestration.
- Designed a modular cross-platform UI in Flutter that delivers consistent user experience across Android and iOS.
- Awarded **2nd Prize** at the Google Hack Sprint for demonstrating scalable AI integration and system design.

RUSH — Rental Marketplace (Rent Upon Sudden Help) Jul 2025
Flutter · Dart · AWS · REST APIs

- Built a cross-platform item rental marketplace supporting real-time listing, search, and booking workflows for both Android and iOS.
- Implemented secure user authentication, item lifecycle management, and rental request pipelines with full end-to-end data flow.
- Integrated AWS backend services to ensure application scalability, reliability, and performant data handling under load.
- Designed a responsive, component-driven UI in Flutter achieving clean separation of concerns across feature modules.

EXPERIENCE

Full Stack Development Intern | Technical Hub, Surampalem May 2025 – Jun 2025

- Delivered *Flutter Mart*, a production-grade e-commerce app, within an Agile team of 5 using two-week sprint cycles.
- Engineered frontend components and backend integration pipelines, contributing to both UI layer and data workflows.
- Enforced Git best practices — feature branching, PR reviews, and conflict-free merging — across the full development lifecycle.

EDUCATION

2023 – 2027 B.Tech, Computer Science & Engineering **CGPA: 9.41**
Aditya College of Engineering and Technology, Surampalem

CERTIFICATIONS

MongoDB Associate Developer — MongoDB	GitHub Foundations — Microsoft
Oracle Certified Foundations — Java (2025)	Oracle Certified Foundations — Database (2025)
Python Essentials 1 — Cisco Networking Academy	Programming Essentials in C — Cisco

Demonstrated skills: MongoDB (CRUD, indexing, schema design, backend integration) · Git & GitHub (version control, PRs, team collaboration) · Docker (containerisation fundamentals)

ACHIEVEMENTS

- Secured **Top 3** out of all participants in the **Java-Quest Coding Challenge** conducted by Aditya University.
- Ranked **Top 5** in the **SQL Query-thon** competitive programming contest, Aditya University.
- Won **2nd Prize** at the **Google Hack Sprint** (Aditya University) for engineering the AI interview platform *Qlue*.
